

Kristen Street

Senior Consultant

Kristen is a passionate and driven health, safety and environmental professional with formal qualifications and over 15 years' experience in high-risk heavily unionised industry in both operational and corporate roles.

She has a proven track record in the development and implementation of strategies, systems and projects focussed on addressing HSE risk, compliance, leadership and cultural change. Kristen's success is underpinned by her technical and practical skills and knowledge and her ability to lead, engage, innovate, and influence across all organisational levels.

Kristen's key achievements include:

- Consultative development and implementation of nationalised critical risk management framework focussed on critical risks, consistency and measurement and reporting on the effectiveness of critical controls.
- Development of integrated HSE management system. Certified ISO 45001/14001
- Industry recognised (Shipping Australia Awards) for Mental Health and Wellbeing program and strategy.
- Development of decarbonisation roadmap focussed on efficiencies and renewable energy.
- Leader in the development of COVID-19 management response strategy including one of the first organisations to mandate vaccination in a highly unionised environment.
- Design, development, and implementation of customised HSE reporting database.

Kristen's formal qualifications include:

- Master of Science in OH&S with Distinction, Wollongong University
- Bachelor of Science in Exercise Science with Distinction, Wollongong University
- Certificate IV in Onsite Environmental Management
- OH&S and Environmental Management Systems Lead Auditor
- ICAM Lead Investigator
- TapRoot Incident Investigation & Root Cause Analysis
- Mental Health First Aid
